

## 8th Festival of the Artist's Book and of Small Editions 2015

International itinerary, from Barcelona, 23<sup>rd</sup> April 2015

# BOOK SEEDS

## Small but powerful

**The Artist book is the seed of new editions.** Tiny hand-printed editions and only one of a kind crafted objects opens on the relationship between unique and multiple. Artist book is researching about process and technologies needed for prototype to series production. **Like a seed, Artist book is an object that can change its form** revealing many approaching levels. Through different paper, folding, but also using other materials according to the full author's freedom of mixing languages and mutating the message in tactless, visuals and even sound reading.

For the 2015 edition, books format has to be at least **15x15 cm (closed) with no restriction when opened.** *Seed books* speak about micro-worlds to be archived, on new imaginaries, on every day life start point to the incredible. They can be narrative, can be visual poetry or just can be useful for other travels.

**Organization** ILDE (I Libri De...) Cultural Association

**Artistic direction** Elisa Pellacani

**With the collaboration of** Editions Consulta, librieprogetti - Escuela Itinerante del Libro

**And of** Ayuntamiento de Barcelona, Centre Civic Pati Llimona

## **The book, unique object or reproducible, transforms itself into a thought that flies and for which there are no easy definitions**
